Patung Shiwa Gilimanuk Jembrana

JEMBRANA is a regency located in [Bali](#) Province, [Indonesia](#). It is situated in the western part of the island and is known for its natural beauty, cultural attractions, and agricultural heritage.

One of the most famous attractions in [Jembrana](#) is the West [Bali](#) National Park, which covers an area of over 190 square kilometers and is home to a variety of wildlife, including the [Bali](#) Starling, a critically endangered bird species. Visitors can take guided tours through the park and enjoy activities like hiking, birdwatching, and snorkeling.

[Jembrana](#) is also known for its traditional agricultural practices, including rice farming and cattle raising. Visitors can learn about these practices and the importance of sustainable agriculture at the [Jembrana](#) Regency Agriculture Museum.

Another popular attraction in [Jembrana](#) is the Rambut Siwi Temple, which is known for its stunning ocean views and is an important site for Hindu Balinese people. The temple is located on a cliff and offers a peaceful and picturesque setting for meditation and prayer.

In addition to its natural and cultural attractions, [Jembrana](#) is also home to several beautiful beaches, including Medewi Beach, which is known for its surfing opportunities, and Perancak Beach, which offers calm waters and a tranquil atmosphere.

[Jembrana](#) is a great destination for travelers looking to experience Bali's natural beauty and agricultural heritage. It offers a more off-the-beaten-path experience compared to some of Bali's more touristy areas, making it a great place to unwind and connect with the local culture. ([Destinasi](#))
